

PROPOSAL FOR 2026 MEMBERSHIP FEES

As BoA members are aware, 2015 as the last year EFC membership fees have been increased. While EFC tried to maintain lower cost for member societies, operational costs have increased significantly over the last 10 years and we propose that there is a small increase applied to membership fees in 2026.

Chart below shows Eurozone inflation rates over the last 10 years. For comparison, if fees were increased every year in line with inflation, member societies would have been paying £2,136 in 2024.

Proposed 2026 fees are detailed below, with member society fee increase kept to a low 2% and university and affiliate member fees increasing by 5%.

	2015-2025 fee	2026 proposed fee	% increase
Universities	€1,030	€1,080	5%
Affiliate companies	€1,550	€1,625	5%
Member societies	€1,690	€1,725	2%

Action: BoA members are asked to vote on the proposed increase, and whether to put it forward to GA for approval.
