

RULES FOR THE AWARD OF THE

KURT SCHWABE PRIZE

Founded by the Hungarian Federation of Corrosion "**HUNKOR**"
delivered at the **EUROCORR** Conference

AWARD

In honour of the late Professor Kurt Schwabe and on the initiation of the Hungarian Federation of Corrosion (HUNKOR) "KURT SCHWABE PRIZE" has been established by the HUNKOR.

The award, which consists of a medal, a diploma of merit and a sum of 500 EURO, is presented to a young scientist in recognition for his/her scientific, technical and teaching activities achieved on the field of corrosion. The evaluation is based on the scientific achievements and publications of the applicants as well as on supporting letters.

RULES FOR THE NOMINATION

Applicants from the EFC Member Societies and individuals will submit their proposal to the EFC Secretariat, Paris (CEFRACOR, 28 rue Saint-Dominique, F75007). It should consist of an application, list of publication and letters of support from at least three specialists (who are familiar with the work and knowledge of the candidate). The nomination process will close on February 15th in the year of the medal award. Nominees must have less than 13 years of professional experience (incl. PhD) upon time of the EUROCORR. Other candidates may also be considered if there are extraordinary reasons for doing so (extraordinary reasons refer to illness, parental leave or similar circumstances).

A jury will evaluate the submitted materials. The selection committee for the award evaluation consists of three members: one who represents the Hungarian Corrosion Society and two others selected by the Science and Technology Advisory Committee (STAC). The result of the selection will be announced to the EFC Board of Administration (BoA) and to STAC before their first meetings (at the latest by 1st of May) of the year of the award presentation.

The Kurt Schwabe Award will be handed over at the Opening Ceremony of the European Corrosion Conference (EUROCORR). The winner will be asked to deliver a lecture on his/her activity attained on the field of corrosion.

FORMER RECIPIENTS OF THE KURT SCHWABE PRIZE

2000	Dr. Ilona Felhősi, Hungary
2003	Dr. Mary P. Ryan, UK
2006	Dr. Tomáš Prošek, Czech Republic
2009	Dr. Laure Martinelli, France
2012	Dr. Ramazan Solmaz, Turkey
2015	Dr. Marta Mohedano, Spain
2018	Dr. Andrea Quaini, France
2021	Dr. Richard James Barker, UK
