

WP 10 meeting report 2017

This year the attendants were more than 30 persons, almost all active and participative to the discussion. The participants greatly appreciated the joint session with WP Marine Corrosion and the subdivision of the regular session with first “cases”, then “mechanisms and tools”, finally “solutions and biocides”.

The number of attendants were 30-60 (mostly 50), subdivided for days were:

30-70 (mostly 60) persons at the JS in memory of prof. Francesco Mazza.

20-60 persons (mostly 40) persons the first day WP10

20-50 persons (mostly 50) persons the second day session WP 10.

The following decision were discussed during the WP10 meeting (30 attendants) and taken for the next Eurocorr 2018:

- 1) It was approved a joint session with WP Oil and Gas .
- 2) It was decided to organize a course on microbial corrosion (electrochemistry microbiological tools and fundamentals) to be taken on Sunday, the first day of Eurocorr 2018.
- 3) It was decided to activate the window of “Friends of microbial corrosion working party” on the web site, where it will be put name and affiliation of each one.
- 4) It was decided to put the keynote presentation (slides) on the web site.
